

Stock Design Splashback Price List 2024

Our splashbacks are priced according to both the size and the design. There is a separate price table below for each of the stock design collections: Grasses, Wave, Colonsay and Earth.

To see the price of your splashback, find the width in millimetres along one axis of the table, and the height along the other axis.

For example, a splashback of size 900mm x 750mm in one of the colourways from the Grasses collection would cost £1175.

If your size falls between size brackets, go to the upper size to find the price – for example a splashback of 980mm x 780mm in the Grasses collection would be priced as 1000mm x 800mm, ie £1392.

We are actually able to produce panels up to 2250mm x 1070mm in one piece so if you require a size larger than the price list shows please contact us for a quote.

Prices shown also include the necessary adhesive for installation.

Splashbacks are delivered by fully insured courier service, and cost is subject to location – please [contact us](#) for a price.

Grasses Collection
